	Getting started: Digital classroom and student voice Completed on: 11/23/2020	This learning path prepares educators to begin using technology with their classroom. Each of these courses provide easy-to-follow steps to learn the tools and get started with students right away. Educators will discover ways to encourage students to engage in the content and find agency with the tools provided.	3.5 hours
	Engage and Amplify with Flipgrid Completed on: 11/23/2020	In this course you will learn how to integrate Flipgrid into your classroom and explore Flipgrid ideas and resources from educators around the world. This course is designed for educators of all subject areas, early grades through higher education who want to empower student voice with Flipgrid. Upon completing this course, you will earn the Flipgrid Certified Educator badge and will join an inspiring community of thousands of educators around the world using Flipgrid to engage and amplify their learners!	1 hour
	Master Microsoft Teams for remote learning Completed on: 8/24/2020	Microsoft Teams is the communications and collaboration hub within Microsoft 365 – an essential tool for remote learning. The training courses below will help you master Microsoft Teams and enable you to teach other educators. Each course comes with resources and teacher training packs as well as a quiz to test knowledge.	11 hours
	Collaborate faster using Microsoft Teams for higher education staff Completed on: 8/24/2020	Microsoft Staff and PLC Teams provide the perfect location to work with colleagues on projects, curriculum adoptions, and even university wide initiatives. Administrators can communicate and collaborate with their faculty in one location. Policies and procedures, forms, instructions for various tasks and responsibilities, and more can all be shared within Teams for quick access. Teams supports online meetings with screen share and whiteboard annotation that can be recorded, automatically saved, and transcribed in Stream. Whether your colleagues are down the hall or in another building across town, Staff and PLC Teams support collaboration among educators.	1 hour
	Microsoft Teams Course 5: Class Notebook in Microsoft Teams (presenter-led training) Completed on: 8/24/2020	The Class Notebook in Microsoft Teams course explores how to leverage Class Notebook within Teams to plan rich, well-thought out curriculum, assign engaging projects, and support student collaboration and communication.	2 hours

	Working with a visual learning tool (Sensavis) Completed on: 9/20/2019	This course will give you a deeper understanding of why visual learning is important and how you could use a tool like Sensavis Visual Learning Tool in your teaching. Sensavis Win 10 app is an interactive, visual learning tool that makes learning fun and exciting. It is flexible, and allows the teacher to use the specific terminology, level and pace which is suitable for each student group. It makes it easier for students to learn by visualizing the abstract and complex. The tool contains content within biology, chemistry, physics, mathematics, geography, and engineering.	1 hour
	21st century learning design: Course 1 - introducing 21CLD Completed on: 9/20/2019	This course gives an overview of the key 21st century skills of; collaboration, knowledge construction, self-regulation, problem-solving and innovation, information and communications technology (ICT) for learning, and skilled communication. It explores what learning looks like in the 21st century and how innovative teaching practices can support student learning to develop these skills. To successfully complete this course, you must pass the assessment by answering at least 80% of the questions correctly.	1 hour
	Experience Bing for education Completed on: 9/20/2019	In this course, you will learn about safe search, discover free lesson plans provided by Bing, learn how to improve your search skills, find out about Bing has Answers and Bing Pulse. To successfully complete this course, you must pass the assessment with at least 80% of the questions answered correctly.	1 hour
	Windows 10 Anniversary Update Completed on: 9/20/2019	In this course, you will learn about the different ways Windows 10 Anniversary Update can enhance teaching and learning by providing ways for teachers to utilize technology in more interesting and dynamic ways. Windows 10 also puts the power of learning in the hands of students - creating more opportunities to create, collaborate and show their learning in a variety of ways.	1 hour
	Streamline efficiency with Office 365 apps Completed on: 9/20/2019	Office 365 provides the right environment for better learning outcomes. In this introduction to Office 365, educators will learn how to become more innovative with cloud-based tools, regardless of the device they use. This course is aimed at educators for whom Office 365 is relatively new and who are looking to implement solutions to classroom problems right away. With Office 365, educators will learn how to become more innovative with cloud-based tools, regardless of the device they use.	1 hour

	Problem-Based Learning Completed on: 2/24/2019	Problem-based learning (PBL) has become an integral part of the 21st century classroom. When students are faced with solving ill-structured, open ended, messy problems, they are pushed to think more critically and work collaboratively. Many Microsoft tools help support problem-based learning. This course has been developed to help you understand what PBL is and how to plan and implement a problem-based-learning experience in your classroom.	1.5 hours
	Teaching with Technology (basics): Lesson 4 - Part 3: Summary & Quiz Completed on: 2/24/2019		0.0833333333333333 hours
	Microsoft K-12 Education Transformation Framework: Intelligent environments Completed on: 2/24/2019	Developing intelligent environments to optimize learning for both students and teachers is the third pillar in Microsoft's Educational Transformation Framework. This includes creative collaboration in flexible learning spaces, creating more sustainable and energy-efficient ways of working, and providing responsive and coordinated security to keep learning communities safe. School leaders can create intelligent environments by configuring each learning environment to create purpose-driven and accessible learning spaces backed by smarter security and facilities management. This course will guide school leaders through their own process of building intelligent environments. Starting with a brand new space to design an intelligent environment would be great, but is not realistic for most school leaders. This course takes into consideration the obstacles school leaders face when designing an intelligent environment within their current building.	4 hours
	Interactive Instructional Tools for Inclusive Classrooms (presenter-led training) Completed on: 2/24/2019	The Mobile Tools for Inclusive Classrooms course introduces teachers to the Microsoft Translator and Office Lens tools. This course is designed to help educators leverage these apps to meet the needs of diverse learners in the classroom. In the Presenter's and Participants' packages, you'll find just about everything you need to facilitate a collaborative teacher training session. Just bring your presentation A-game (we know you always do). We've got planning and organization covered.	8 hours
	Microsoft K-12 Education Transformation Framework: Modern teaching and learning Completed on: 2/24/2019	This Learning Path focuses on Modern Teaching and Learning. As part of the Microsoft Education Transformation Framework, this component is aimed at school leaders looking to transform the teaching and learning practices within their school.	4 hours
